

Building design & drafting

Indicative fee guide

Flexible building design and drafting support for builders, homeowners and developers. Services can be engaged on an hourly basis or quoted as a fixed fee depending on project scope.

Services

Drafting & design services	\$80 / hr
Existing-condition measure-up & drawings	From \$650
Alterations & additions - concept / design drawings	From \$1,250
DA / CDC documentation	From \$1,800
Construction / working drawings	From \$2,500
3D modelling & visualisation	From \$400
Revisions / additional drafting	\$80 / hr
Site attendance / measure-ups	\$80 / hr + travel

Overflow drafting, mark-ups, drawing updates and project support can be engaged at \$80/hr + GST.

Project fees

Fixed fees can be provided once the scope, existing information and required deliverables have been reviewed. Fees vary with project size, complexity and documentation requirements.

Exclusions

Surveyors, engineers, BASIX/NatHERS consultants, planners, certifiers, council fees and other specialist consultants are excluded unless specifically included in the proposal.

GST

All fees shown exclude GST. Indicative rates are subject to scope review and confirmation.
